As we are moving around the corner of culmination of the current Academic Year, It is with great deal of pleasure to speak about salient headways and impacts made in our school Online Education and several other features and unique good entries in School chronicles that we have experienced and witnessed this year. When we turn calendar pages backwards, 2020- an annushorribilis as social and economic veterans pointed out owing to unprecedented and uncontrollable toll rates during Covid School years and it has marked indelible black spots of death in our memory. It came wrapped with monstrous look or unending suffering and pains. Yet, We acknowledged the year as blessing in disguise as we were able to learn that many facts and figures are used only for arguments or debate instead We need to keep practicing Virtues and Quality Relationships. May praise be given to Allah always for keeping us intact and making us as channel of doing good acts during this Pandemic and pestilence days. Really speaking, we were in dilemma and discomforts regarding with how to commence the current academic year 2020- 2021. Yet, we are thrilled to Thank Allah for having realized this Remote Virtual Learning possibility as we have dreamt of and planned for our tiny tots and pupils without missing a single day in school year.

We never fail to be astonished and delighted by generosity of spirit displayed by our students and parents. OUR STUDENTS did tremendous job figuring out how to log into authenticated Teams session from home navigating, joining class, dealing tech issues...etc and really it was Learning Lessons. And privileged to say together that at annals of Novel School, there we keep place Big Salutes and token of huge Thanks to our shoulder shared worthy parents and beloved, compassionate and inquisitive students whose hymns of praises and optimism with resilience have been resounding in our Ears.
